General Business:

Extended discussion regarding the proposed Queensland Government, written off vehicle register. Gary shared concerns that the changes will remove repairable classic cars off the road, damage the supporting industry and increase bureaucracy.

Ian, Craig and Martin each shared a story about importing/repairing cars in Queensland, including Caterham, Land Rover Discovery and MG Midget and how these laws would affect various situations.

Warran sought out information on buying new steering bushes and shared how a previous mechanic had not installed various steering parts correctly. Craig pointed to <https://www.jrwadhams.co.uk/>.

Story shared by Craig about a Rover P4 that was used as a wedding car by the bride, that knocked her over and rolled down a hill. It appeared that slamming the door can dislodge the handbrake.
